

CE2-M7 : connaître et utiliser les unités de mesure de masse

Aide-memo

Connaitre des unités de mesure de masse

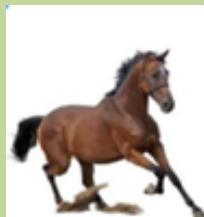

$$1 \text{ t} = 1000 \text{ kg}$$

L'éléphant pèse 2753 kg
ou 2 t 753 kg.

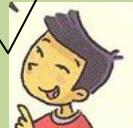

2753 kg

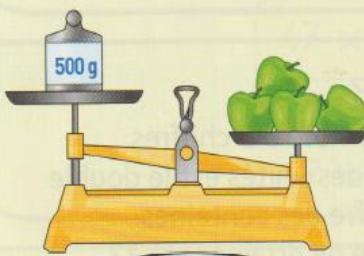

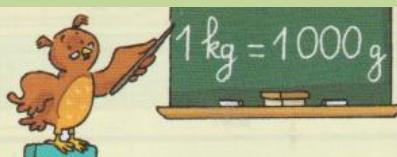

857 kg

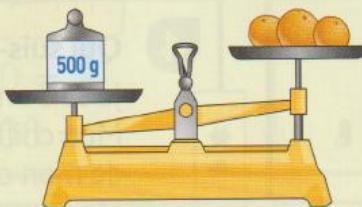

Le cheval pèse 857 kg
ou 800 kg 57 g.

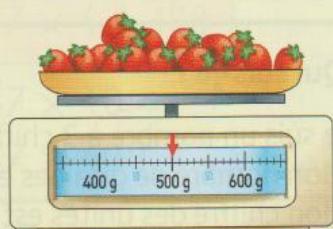

Mesurer des masses

Les pommes pèsent
plus lourd que 500 g

Les oranges pèsent
moins lourd que 500 g

Je lis
la graduation.

Les fraises
pèsent 500 g
